SOFTWARE DEVELOPER

SUMMARY

Software Engineer with 3+ years of experience crafting high-performance mobile apps, full-stack platforms, and AI-powered solutions. Proven track record in Android/iOS development, cross-platform Flutt applications, WordPress development, and machine learning implementations. Specialized in creating seamless user experiences with modern technologies including React.js, Node.js, WordPress, TensorFlo and scikit-learn. Award-winning developer with published research in AI consciousness and innovative tech solutions.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer
AllotMeal Afroc Platform

2023 - Present

Created and deployed allotmealafroc.com connecting 1000+ hotels, businesses, and stakeholders through listings, networking, and payment services. Built with Next.js, MongoDB, and Netlify, processing thousands of bookings.

Radio Platform Developer
KenLive Radio

2023 - Present

Created live streaming radio platform for community news and programs founded by Ken Wakuraya, former Inooro news anchor. Built real-time audio broadcasting system with chat features and analytics dashboard handling thousands of concurrent listeners with zero downtime.

Full-Stack & Mobile App Developer
Milestone Radio

2023 - Present

Developed both web platform and Android mobile app for Milestone Institute's educational radio system. Mobile app has 10,000+ downloads on Google Play Store with live streaming, offline playback, push notifications, and social sharing capabilities.

Mobile App Developer
SCHACCS & Educational Institutions

2024 - 2025

Developed parent-student portal with 10,000+ downloads featuring fee overview, academic results, attendance tracking, and event notifications. Built using Flutter, Firebase, and SQLite for cross-platform compatibility.

Freelance Web Developer
Multiple Organizations

Jan 2023 - Dec 2023

Built secure, responsive web applications and CRM modules using PHP, Laravel, and MySQL. Collaborated with clients to deliver custom solutions on schedule, improving operational efficiency by 60%.

Full-Stack Developer & IT Trainer
Newsline Media

Aug 2024 - Dec 2025

Developed platform connecting businesses with students seeking attachments and training opportunities across Kenya. Trained attachés in Web Development, Android App Development, AI/ML, Cybersecurity, Networking, and Database Management.

KEY PROJECTS

AllotMeal Africa Business Platform
Full-Stack Web Development

2023 - Present

Comprehensive business platform connecting 1000+ hotels, restaurants, and stakeholders. Features listings, networking, payment processing, and booking management. Built with Next.js, MongoDB, and modern web technologies.

KenLive.co.ke Website
WordPress Development & Renovation

2023 - 2024

Complete WordPress website renovation with modern UI/UX, improved performance (60% faster loading times), and responsive design. Implemented custom themes, plugins, Elementor page builder, and SEO optimization for enhanced user experience and search visibility.

Milestone Radio Web & Mobile App
Cross-Platform Development

2023 - Present

Educational radio system with web platform and Android app (10,000+ downloads on Play Store). Features scheduled programming, podcast archives, live streaming, offline playback, and push notifications.

SCHACCS Parent-Student Portal
Mobile Application Development

2024 - 2025

Educational mobile app with 10,000+ downloads. Features fee overview, academic results, attendance tracking, event notifications, and parent-teacher communication. Built with Flutter for cross-platform compatibility.

EDUCATION

Bachelor of Science in Computer Science
Gretsa University, Thika, Kenya

Sep 2019 - Sep 2024

Second Class Upper Division

TECHNICAL SKILLS

Mobile Development
- Android (Java/Kotlin)
- iOS (Swift)
- Flutter & Dart
- React Native
- Firebase & SQLite

Web Development
- WordPress & wordpress plugins
- React.js & Next.js
- Node.js & Express
- PHP & Laravel
- HTML5/CSS3/JavaScript
- MongoDB & MySQL

AI/ML & Data Science
- TensorFlow & PyTorch
- scikit-learn & Pandas
- BERT & NLP
- Computer Vision
- Statistical Modeling

Tools & Platforms
- Git & GitHub
- Docker & Cloud Services
- Figma & Adobe XD
- Agile/Scrum
- API Integration

MORE PROJECTS
